Cost of Data Breaches

According to Cybersecurity Ventures, the global cost of cybercrime in 2023 is projected to reach \$8 trillion USD, Making it the world's third-largest economy if it were considered as a separate country, trailing only behind the United States and China.

25%

Indian firm lost Rs 176 Million (\$2.37 million) in data breaches during 2021-22 a 25% increase over year earlier

50%

Of breach cost incurred more than a year later, highlighting lingering financial consequences for organisations

Rs 216mn

Stolen or compromised credentials (Rs 216mn, phishing (Rs 206 million), and accidental data loss/lost devices (Rs 190 million) were the biggest data breach in India

\$4.35mn

Global average cost of data breach hit \$4.35 million, an all-time high, nearly 13% increase over the last two years

Our Solution | Security & Network Infrastructure

Security

- UTM, Firewall, End Point Security
- Email Security, NAC, DLP
- Web Application Firewall
- MDM, DDoS & IP Reputation
- SIEM Security Analytics
- Advance Threat Protection
- ZTNA

Network

- Switching, Routing & Wireless
- Backup & Storage
- WAN Optimization
- Network access Control
- Structure Networking
- Hotspot Setup
- Wireless Security
